Gentlemen:

Packer tests were conducted on your #3-A Jicarilla well in the
SW $\frac{1}{4}$ Section 23-25N-5W on January 4, 1957 and January 9, 1957.

These tests were witnessed by Mr. A. R. Kendrick of the Aztec
office of the Oil Conservation Commission. The tests indicate
that there is communication between the zones and we are therefore
directing that your company start remedial action within the next
30 days under the terms of DC Order 269.

Yours very truly

Emery C. Arnold
