Dear Sir:

In answer to your letter dated July 24, 1956, regarding the dual completion of Jicarilla "C" Well No. 3, located in the SW/4 of Section 21-25N-5W, Rio Arriba County, New Mexico, this well was drilled through the Mesa Verde section and found to be non-productive. The well was then plugged back and completed in the Pictured Cliffs formation through perforations from 2678' to 2722'. Therefore no dual completion was necessary.

Yours very truly,

P. E. Cosper
