

POST OFFICE BOX 728
FARMINGTON, NEW MEXICO

July 8, 1957

New Mexico Oil Conservation Commission
District No. 3
120 East Chaco
Aztec, New Mexico

Dear Sirs:

Re: Canyon Largo Unit No. 3-23.

On behalf of Mr. Frank A. Schultz, we submit, in quadruplicate, Form C-104 for the following well:

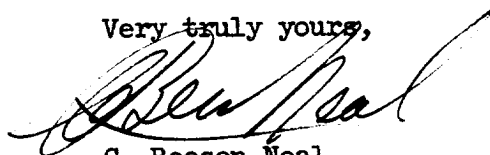

Canyon Largo Unit No. 3-23
Unit P-Sec. 23-25N-6W
Rio Arriba County.

Copies of Form C-128 were attached to the notice of intention to drill this well which was filed with the United States Geological Survey, and we presume a copy has been forwarded by their District Engineer to you.

Mr. Frank A. Schultz appeared as "Operator" while this well was being drilled - with the approval of the Superior Oil Company - but now that the well is completed, it will become part of the Canyon Largo Pictured Cliffs Unit which is operated by Superior Oil Company.

We presume, therefore, that the Superior Oil Company will file Form C-110 in due course.

Very truly yours,

C. Beeson Neal
For Frank A. Schultz
