Re: Remedial Action, Amerada Petroleum Corp., Jicarilla F #4, J-18-25N-5W

Dear Mr. McCoy:

The packer-leakage test report which was submitted for the above well on November 14, 1968, indicates that there is communication between the producing zones.

You are hereby directed to take immediate remedial action to separate the producing zones in this well in accordance with the terms of the multiple completion order authorizing this dual completion.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
