Re: J. Apache "F" No. 4  
Sec. 18-25N-5W  
Rio Arriba County  
New Mexico

Gentlemen:

The packer-leakage test completed November 5, 1968, indicated the subject well had communication between the Chacra and Pictured Cliffs Zones.

Amerada replaced eight bad joints of 2-3/8" tubing in the Chacra tubing string. Remedial work was completed November 27, 1968, and well was put back on production.

Would you please reschedule the J. Apache "F" No. 4 for a packer-leakage test.

Very truly yours,

  
C. H. McCoy

CHM/alr

cc: Mr. E. C. Arnold
