Re: Request for Approval of Non-
Standard Gas Proration Unit
for "C" Well 6-6

Attention: Mr. A. L. Porter

Gentlemen:

In accordance with Order No. R-565-C, Rule 6 (B), request is made for administrative approval of a non-standard gas proration unit for Northwest Production Corporation "C" Well 6-6, which is located in the SW/4 of the SW/4 of Section 6, Township 25 North, Range 4 West, Rio Arriba County, New Mexico.

The proposed non-standard unit for "C" 6-6 consists of the SW/4 of said Section 6, including lots 6 and 7 contiguous to the SW/4, a total of 163.21 acres. The unorthodox size of the proposed unit is caused by a variation in the legal subdivision of the United States Public Land Survey, and it lies within a single governmental section, all of which is subject to an oil and gas lease in favor of Northwest Production Corporation. It is reasonable to presume that all of the non-standard unit is productive of gas.

According to our records, and as indicated on the attached plat, Southern Union Gas Company, 1001 Burt Building, Dallas, Texas, owns the mineral rights in Sections 1 and 12, Township 25 North, Range 5 West, which offset our "C" Well 6-6. Copy of this request for approval of a non-standard gas proration unit is being given this operator by registered mail.

Very truly yours,

NORTHWEST PRODUCTION CORPORATION

A. R. Johnston, Manager
Production Operations
