17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Petro-Lewis proposes to put well back on production by pumping well under a packer. We are attempting to work out an agreement with a purchaser where we can test this well for a period of two to three months at full deliverability to determine the economic feasibility of repairing a casing leak. We request that we be allowed to produce the well under a packer until April 1, 1987, at which time we will either repair the casing or abandon the well.

18. I hereby certify that the foregoing is true and correct
