Administrative Order No. DHC-61
Jicarilla 30 Well No. 3
Unit J of Section 32, Township 25 North,
Range 4 West, NMPM
Undesignated Gallup and Dakota

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Commission Rules and Regulations for the subject dually completed well to permit the removal of the down-hole separation equipment and to commingle the production from both pools in the well-bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such down-hole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and Commission Order No. MC-1681, which authorized the dual completion and required separation of the zones, is hereby placed in abeyance.

In accordance with the provisions of Rule 303-C, total commingled oil production from the subject well shall not exceed 50 barrels per day, and total water production from the well shall not exceed 100 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by multiplying 2,000 by top unit allowable for the Dakota formation.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

Upper Pool: 70%
Lower Pool: 30%

Sanitation

Reference is made to your report and petition for an exemption
to Rule 503-C of the Commission's Rules and Regulations for the removal
of oil from the well to permit the removal of the down-hole com-
pletion equipment and to complete the production from both wells in
the well-core.

It is noted that the petition for removal for
removal of the down-hole completion equipment from the well 803-C, and that
the petition for removal of the down-hole completion equipment from the well 803-C
is being submitted to the Commission for its consideration. The Commission
has been authorized to consider the petition for removal of the down-hole
completion equipment from the well 803-C, and has been authorized to
consider the petition for removal of the down-hole completion equipment from
the well 803-C.

In accordance with the provisions of Rule 503-C, total com-
pletion of oil from the well 803-C shall not exceed
the total volume of oil from the well 803-C, and the total volume of oil
from the well 803-C shall not exceed the total volume of oil from the well
803-C. The maximum amount of oil from the well 803-C shall be determined by
the Commission.

Assignment of allowances to the oil and allowance of production
from the well shall be on the following basis:

Oil: 100%
Allowance: 100%
