Dear Mr. August:

The form C-110 which you filed recently will clear the way to additional production for the subject well.

The well is not prorated if it is a gas well. The production rate will depend upon your contract with the gas transportation facility to which the well is connected.

Submit a Gas/Oil Ratio report on form C-116 for a test to be taken between 10 and 20 days after the recovery of all load oil.

If we can be of assistance, please contact us.

Yours very truly,

A. R. Kendrick
Engineer, District #3
