proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.) *

Texaco Inc. requests an extension to continue venting forty (40) MCFPD at the subject well. The 34-24-7 #3 has no gas sales line and economics prevent line installation. Previous approval was obtained May 1, 1988 which allowed the royalty owners and working interest owners to benefit from daily oil production. Without profitable production from the subject well, the said lease may be in jeopardy.

Your consideration of this request would be appreciated.
