17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We believe this well is capable of commercial production with oil price at present posting. The downhole pump is presently stuck. We plan to pull this well within the next 90 days and pump test. When well is placed back on production, your office will be notified to witness test.

This procedure was discussed with Ken Townsend on December 27, 1988.
