Dear Sir:

J. Felix Hickman respectfully request that the temporary allowable on his Schmitz #2 which expires on September 23, be extended due to the need of continuing to clean the formation of frac water.

As indicated by the attachment of the daily well report, approximately 1000 barrels of oil and 1100 barrels of water has been produced. An estimated 3000 barrels of water remains to be recovered.

Yours truly,
