12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1983.

This well was approved to be commingled in the Mancos, Greenhorn, Dakota Zones (Case 8042) while Northwest Exploration Company was the operator. Mesa Grande Resources, Inc. has since taken over operations on this well and intends to not commingle the Greenhorn/Dakota Zones with the state defined Gavilan-Mancos pool presently.

We would like to use the next few months to evaluate and rework, if necessary, the present well assemblage. At the end of this period we will open the lower formations when it seems to be appropriate.
