Gentlemen:

This is a request for administrative approval for an unorthodox gas well location in the Devil's Fork Gallup Associated Pool.

It is intended to locate the El Paso Natural Gas Company's Canyon Largo Unit #324 at 1850' from the South line and 1465' from the West line of Section 20, T-24-N, R-6-W, Rio Arriba County, New Mexico.

Extremely rough terrain in the form of steep cliffs, an existing dry wash, and two pipelines in the southwest corner of this section makes it impossible to building an orthodox gas well location.

Copies of this application are being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection and return a copy to this office.

Plats showing the proposed well location and the terrain of Section 20, along with an ownership plat, are attached.

Sincerely yours,

G. W. Brink
Project Drilling Engineer
