(Other) Bury Paraffin-Tank Bottoms ☒

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

ARCO Oil and Gas Company intends to remove a 300 bbl. oil tank from the indicated lease for installation on one of our Southern Ute leases. The tank selected to be moved contains approximately 7-8 inches of paraffin/tank bottoms. ARCO respectfully requests permission to bury this paraffin/tank bottoms on the well location prior to movement of the tank. The tank bottoms appears to be comprised of mostly paraffin, sand and B S & W which has solidified requiring it's removal by shoveling.

As per discussion between Dave Kennedy and Bruce Kennedy, a total of only one barrel of paraffin/tank bottoms was present. Bruce gave verbal approval to bury the small volume in location
