(Other) Install cathodic protection ☒

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Union Texas Petroleum desires to lay a buried AC cable adjacent to an existing pipeline. All disturbance will be limited to the existing pipeline R-O-W. There should be no need for any additional archaeological work as this R-O-W was covered by report CR84-14, and the area has been previously disturbed. In addition, a groundbed will be drilled on the McCroden 7 well pad.
