Re: Krystina #1 K-14-24N-2W

Dear Greg:

Your request to test the referenced well unrestricted by the 30 MCF/D flaring limit is approved for 90 days for the purpose of determining whether or not the well is within the Gavilan Mancos Pool. You will be restricted to the top allowable limit for the Gavilan Mancos Pool. If before the 90 days is over, we determine that the well is in the Gavilan Mancos Pool, the test can be halted and the flaring limit reimposed.

Sincerely,

Frank T. Chavez  
District Supervisor
