Dear Ms. McClintock:

The Oil Conservation Division hereby approves the above-captioned one-well plugging bond effective April 22, 1985.

Because of the great amount of infill drilling in the State, it is now required that all one-well plugging bonds have the exact footage location; example: 660 feet from the South line and 660 feet from the East line. Please have your insurance company issue a rider with the proper information.

Thank you.

Sincerely,

  
R. L. STAMETS,  
Director
