17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

On May 5, 1993 the Ribeyowids Federal 2 #16, Federal lease number NM-40645, SE/4, SE/4, Sec. 2, T25N, R2W, was being pulled for a stuck pump and hot oiling was needed to clear paraffin from the tubing string. Insufficient oil in the Ribeyowids Federal tank battery required transferring oil from the subject well battery. 51.9 Bbl of 35.9° gravity oil was transferred by H B & R, Inc. hot oilers. The transferred oil volume will be credited to the subject well upon the next sale from the Ribeyowids well so that all royalty and division of interest payments can be properly made.
