17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

ARCO Oil and Gas Company began swabbing this well July 10, 1986. The well fluids are presently being swabbed into frac tanks on location with the associated gas being vented. On July 18, 1986 500 bbls. of the produced oil was transferred to our permanent tank battery. The well is continuing to be swabbed at this time.
