17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

ARCO Oil and Gas Company received approval to continue venting gas from the ARCO Hill #23-2 until 01/01/87. In an effort to finalize a gas pipeline design, a GOR Test was run 12/13/86. This test showed 3 BOPD, 5 BWPD and no measureable gas being vented. The only gas which this well presently produces is used as onsite fuel. Based on this, ARCO Oil and Gas Company has temporarily suspended its plans to install a gas pipeline. In an effort to monitor this well, ARCO will run GOR Tests monthly and will install a gas pipeline within 30 days of producing measureable gas in saleable quantities.

Approved under M.P.L. - 4a Sect. III. c.

18. I hereby certify that the foregoing is true and correct
