Re: Additional Information for the
Surface Commingling
Application on Ingram/Howard
Federal Leases

Dear Mr. Stone:

Enclosed you will find the application that I sent you earlier that you returned. I have included the information on the mineral owners and have notified them accordingly.

Each well has a separation facility that separates and stores oil and water. The only hydrocarbon sent down the line is gas. The gas is metered at each well before it goes into El Paso's meter. The total sales for each well is allocated by taking the integrated chart volumes on each well and dividing by the total of the two wells integrated volumes. This percentage is then multiplied by the total gas sales volume received from El Paso.

If there are any further questions, please do not hesitate to call me.

Sincerely,

RB OPERATING COMPANY

Tim Goudeau

Re: Ingram Federal 43-16 & Howard Federal 43-15

Gentlemen:

RB Operating Company requests a surface commingling exception for the above referenced wells.

Enclosed you will find a plat and a copy of the working interest owners in both wells each of which has been notified of this request.

If there are any questions regarding this request, please notify Tim Goudeau at (915) 682-0095.

Yours very truly,

RB OPERATING COMPANY
