Gentlemen:

We are the operator of a gathering pipeline in Rio Arriba County, which is selling into the El Paso Natural Gas pipeline at a delivery point located in the SE/4 NE/4 Sec 35, T24N, R7W (see enclosed plat). The El Paso purchase meter is Sta. #92137. We have just completed hooking up two more wells to this pipeline, the Park #1 and the Lim #1, and we will be metering all three wells at the wellhead. The three wells involved located on 1/8th royalty State of New Mexico Oil and Gas Leases as follows:

The Thirlaway #1 is currently delivering 140 MCFPD into the El Paso line and we anticipate that the Park #1 and the Lim #1 will deliver 100 MCFPD. We plan to have the individual well meter charts calculated by Precision Service, Inc. of Casper, Wyoming, and we will then allocate production to the individual wells on a monthly basis and report same on Form C-111.
