17. Describe Proposed or Completed Operations

Mobil Oil requests another sixty (60) day flaring extension from April 13, 1989 to further monitor the production performance of the well. During the initial testing period (30 days), flaring was a total of 168 MCF of gas and during the 30 day extension, the flared gas averaged 18 to 22 MCF per day.

This confirms verbal request to and approval by Ken Townsend of the Farmington BLM on April 12, 1989.

Mobil Exploration and Producing U. S. Inc., as agent for MPTM.

THIS APPROVAL EXPIRES JUN 11 1989

18. I hereby certify that the foregoing information is true and correct.
