Re: Evans #1 ~~D-8-24N-2W~~

Dear Mr. Corbett:

Your recommended allocation of commingled production for the referenced well is hereby approved as follows:

	oil	gas
Mancos	75%	20%
Greenhorn etc.	25%	80%

Sincerely,

A handwritten signature in dark ink, appearing to read "Frank T. Chavez".

Frank T. Chavez, District Supervisor

Subject: Evans Well No. 1  
Section 5, Township 24 North, Range 2 West  
Rio Arriba County, New Mexico

Dear Mr. Chavez:

Production allocation figures in accordance with Paragraph 3 of the New Mexico Oil Conservation Commission Order R-9328 regarding the Evans Well No. 1 are supported by isolated actual production of each zone, for a thirty day period. After producing the Gavilan Greenhorn-Graneros-Dakota Formation, production stabilized at 3 BOPD. The Gavilan-Mancos Formation was isolated and production was stabilized at approximately 9 BOPD. It was presumed that previous independent production had not changed, therefore allocating 3 BOPD or 25% to the Gavilan Greenhorn-Graneros-Dakota Formation and 9 BOPD or 75% to the Gavilan Mancos Formation.

If you have any further questions regarding our computations please do not hesitate to contact me.

Very truly yours,

John C. Corbett  
Executive Vice President

Subject: Evans Well No. 1  
Section 5, T24N, R2W  
Rio Arriba Co., NM

Dear Mr. Chaves:

Production testing of the referenced well indicated GOR's of 833 Scf/Bbl for the Mancos and 1111 Scf/Bbl for the Greenhorn-Graneros-Dakota. In conjunction with the oil allocation formula previously sent to you, this indicates 20% or 2.5 Mcf/D of the gas is produced from the Mancos and 80% or 10 Mcf/D comes from the Greenhorn-Graneros-Dakota.

If there are any further questions concerning this well please call me at 326-3325.

Very truly yours,

John C. Corbett  
Executive Vice President

Rio Arriba County, New Mexico

Dear Mr. Busch:

In accordance with Paragraph 3 of the New Mexico Oil Conservation Commission Order R-9328 regarding the Evans Well No. 1 the following percentages are submitted in order to determine the proper allocation of production to each respective pool.

Gavilan-Mancos	75%
Gavilan Greenhorn-Graneros-Dakota	25%

Please do not hesitate to contact me if you have any questions concerning this matter.

Very truly yours,

  
John C. Corbett  
Executive Vice-President
