Four Star Oil and Gas Company 3300 N. Butler Avenue Suite 100 Farmington, NM 87401

Dear Sir:

The following conditions of approval must be complied with (as applicable) before the Jicarilla B #5 well located 1650' FNL & 660' FEL Section 32, T. 25 N., R.5 W., can be approved for final abandonment. We are supplying these conditions for surface restoration with your approved Notice of Intent of well abandonment.

- 1. All fences, production equipment, purchaser's equipment, concrete slabs, deadman (anchors), flowlines, risers, debris and trash must be removed from the location.
- 2. Any oily soil or fluids must be properly disposed of in an approved disposal area.
- 3. Pits must be filled in and the edges of the pads shaped to conform to the natural terrain.
- 4. Pads must be leveled, dressed up by a maintainer, ripped and disked.
- 5. Access roads must be leveled, waterbarred, disked and blocked off with earthen berms at the junction with the main road and at the entrance to the well pad. Waterbars should be spaced as shown below.

% Slope	Spacing Interval
Less than 2%	200'
2 to 5%	150'
6 to 9%	100'
10 to 15%	50'
Greater that 15%	30'

All waterbars should divert water off the road.

6. All disturbed areas will be seeded with the prescribed seed mix (reseeding may be required). Reseeding should be done using pounds pure-live seed per acre. To avoid the introduction of noxious weeds, only certified seed should be used. The following seed mix is suggested unless otherwise recommended by the BIA, Jicarilla Agency, Real Property Office.

Western Wheat Grass 8
Intermediate Wheat Grass 9
Galleta Grass 2
Alkali Sacaton 1
Blue Gramma 1

After one growing season, notify us by Sundry Notice of Final Abandonment. We will schedule an inspection to check the well site and surface restoration. Final approval for surface restoration will be given in concurrence with the BIA, Jicarilla Agency, Real Property. We should be provided with a letter from the fee owner stating that the surface restoration is satisfactory.

If you have any questions, please contact Patricia M. Hester at (505) 761-8786.

Sincerely,

Joe Incardine

Joe Incardine Chief, Lands and Minerals
