Att: Mr. D. F. Furse

Re: Dual Completion of Amerada  
Jicarilla "F" #5, SE $\frac{1}{4}$  Section  
16-25N-5W, Rio Arriba County

Gentlemen:

Tentative approval is hereby given for the dual completion of the above well as a gas-gas dual in the Chaera and Pictured Formations. We note that in your application you have neglected to state whether you intend to run dual tubing strings or install a side door choke on your 2" tubing above the production packer. The above approval is subject to equipping the well according to standard procedure in the above matter.

Upon final completion, application for administrative approval should be made to Mr. A. L. Porter in Santa Fe.

Yours very truly

Emery C. Arnold  
Supervisor, District #3

Mr. Emery Arnold  
New Mexico Oil Conservation Commission  
120 East Chaco  
Aztec, New Mexico

Dear Sir:

We intend to dual complete our Jicarilla Apache "F"  
No. 5, located 1650' FSL and 1650' FEL, Section 16, T-25-N,  
R-5-W, Rio Arriba County, New Mexico, in the following manner.

Perforate Chacra Formation and perforate Pictured  
Cliff Formation. Sand-water frac each zone. A Type D Production  
Packer will be set between zones and a PSI Nipple and Separation  
Sleeve used to separate pay zones.

If further information is desired please advise.

Yours very truly,

D. F. Furse
