Gulf Designation: Kinabeto-Federal No. 1

It is proposed to drill a development well to test the Gallup formation to an approximate total depth of 5100'. Approximately 300' of 8-5/8" OD surface casing will be set and cemented to surface. If commercial production is encountered 5-1/2" OD production casing will be set at approximately 5100' and cemented. All possible producing formations will be adequately cored and/or tested.
