Attn: Mr. S. L. Florsheim, Jr.
General Manager

Dear Sir:

We have received copies of Federal Notice of Intention to Drill, along with acreage dedication plats for your #2 Nancy Federal well located in the SW $\frac{1}{4}$ Section 12-24N-8W.

The well is located 990 feet from the South line and 2090 feet from the East line of Section 12 and is therefore non-standard because it is closer than 790 feet to the boundary line of the quarter-section on which it is located. If the well is non-standard because of topographical reasons you may secure administrative approval of the location by applying to Mr. A. L. Porter, Secretary-Director of the Oil Conservation Commission, Box 871, Santa Fe, New Mexico, and furnishing waivers from offset operators. Otherwise it will be necessary to take the matter to a hearing for approval.

It is also not indicated on your plat which 80 acres is to be dedicated. If you will please notify us of this we will outline the acreage on the plat.

I also note that we have never received a copy of the Federal Well Record form 9-330 for your Federal #1-30 well located in G-30-24N-7W. We show this well spudded 4-16-61 and plugged and abandoned 4-30-61/ Will you please send us two copies of the Well Record form for this well.

Yours very truly

ECA:ks
