Submit original trial I copies to the appropriate district office.

APPLICATION FOR APPROVAL TO USE AN ALTERNATE GAS MEASUREMENT METHOD Rule 403.B(1) or (2)				
•	rator Name: Dugan Production Corp. rator Address: P.O. Box 420, Farmington, NM 87499	Operator No.		
•	e Name: Elwood P. Dowd #2 Type:	State Federal X Fee		
Loca		Juan County, NM		
Pool	White Wash Mancos / Dakota			
		indefinite indefinite		
APPROVAL PROCEDURE: RULE 403.B.(1) Please attack a separate sheet with the following information. Side				
1) 2) 3) 4) 5)	 A one year production history of each well included in this application (showing the annual and daily volumes). The established or agreed-upon daily producing rate for each well and the effective time period. Designate wells to be equipped with a flow device (required for wells capable of producing 5 MCF per day or more). 			
APPROVAL PROCEDURE: RULE 403.B.(2). Please attach a separate abost with the following information. A separate application is required for each Central Point Delivery (CPD). Working interest, reyally and overriding reyally ownership smart be common for all wells to be connected to the subject CPD.				
1)	 As ownership plat showing a description of the lease and all of the wells to be produced through this CPD. a) List the wells which will be metered separately, including API No. b) List the wells which will not be metered separately, including API No. 			
2)	Describe the proposed method of allocating production from non-metered wells.			
3)	A one year production history of the wells which will not be metered showing the	he annual and daily volumes.		
4)	The gas transporter(s) connected to this CPD.			

4) The gas transporter(s) connected to this CPD.				
Applicant will be responsible for filing OCD Form C-111 for the CPD.				
OPERATOR I hereby cently that the rules and regulations of the Oil Conservation Division have been complied with and that the information given above is true and complete to the best of my knowledge and belief.	OIL CONSERVATION DIVISION This approval may be cancelled at anytime that operating conditions indicate that re-tests may be necessary to prevent waste and protect correlative rights.			
\cap \cap	Approved Until:	Further Notice

APPLICATION FOR APPROVAL TO USE AN ALTERNATE GAS MEASUREMENT METHOD ATTACHMENT NO. 1

APPROVAL PROCEDURE: RULE 403.B(1)

1.) A list of the welle (including well name, number, ULSTR location, and API No.) included in this application.

Elwood P. Dowd # 2 Unit P, Section 10, Township 24N, Range 9W San Juan County, New Mexico API# 30-045- 24905

2.) A one year production history of each well included in this application (showing the annual and delity volumes).

1994 Annual Production - 2,901 MCF 1994 Avg. Daily Production - 7.9 MCFD

The established or agreed upon daily producing rate for each well and the effective time period.

Since the date for commencing alternate gas measuremnt is contingent upon regulatory approval & equipment modification, the average daily producing rate to be used during the first 12 month period will be determined at the time of commencing alternate measurement & will be the average daily producing rate during the most current & representative month. Should alternate measurement be approved & implemented on 8–1–95, the first year daily average rate will be the average during 5/95 or 6/95. The daily average producing rate to be used during subsequent 12 month periods will be determined during an annual test of sufficient duration to establish daily average production. This test will be taken during a 4 month period preceding the period to be effective, under normal producing conditions, with gas volumes being recorded using a portable flow meter for a minimum of 24 hours. Upon commencing the use of alternate measurement, we will report that date and the daily average rate for the first 12 month period to the NMOCD and BLM.

4.) Designate wells to be equipped with a flow device frequired for wells capable of producing 5 MCF per day or more).

A flow device will be used to establish producing time on a monthly basis.

6.) The gas transporter(s) connected to each well.

Dugan Production Corp.
