17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well is a commingled producer from the Dakota formation and Gallup formation. The Dakota is now producing water and creating a production problem. We propose to plug the Dakota and produce the well as a single Gallup producer as follows:

1. Pull rods and tubing.
2. Set cast iron B.P. @ 6278' (50' above Dakota perfs).
3. Dump 50' of cement with Dump bailer on plug.
4. Re-run rods and tubing and pump well as Gallup single completion.

18. I hereby certify that the foregoing is true and correct

SIGNED Jim L. Jacobs TITLE Geologist DATE 4/4/85
