13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This coal well will require de-watering before it is capable of producing economic quantities of gas. The operator is in the process of developing other coal wells in the area to accomplish this de-watering. Request permission to temporarily abandon by setting a cast iron bridge plug above the perforations. The casing will be pressure tested after the plug is set.
