13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

We request continuation of long term shut-in for this well. It is completed in the Fruitland Coal. The Fruitland Coal in this area requires that it be de-watered to produce at economic rates. Testing of other nearby wells yielded large volumes of water. Our plan is to drill other coal wells in adjacent spacing units to de-water the entire area.
