13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Request that operator be given until 12/31/2000 to establish production from this well. We have been unable to keep this well pumping to adequately test production due to its location (large sand wash has rendered access with a rig virtually impossible). A possible solution has been proposed by DS Services that has worked for other operators with a similar situation.

14. I hereby certify that the foregoing is true and correct.
