Attention: Mr. Emory C. Arnold

Dear Sir:

Our Jicarilla "D" No. 1, Sec. 24, T-26N, R-3W, has produced a cumulative total of 458 MCF to Pacific Northwest Pipeline Company. It has not produced since September, 1957. The well will not produce regularly against the present pipeline pressure, and we have been unable to run a deliverability test.

Until such time as remedial work is done, or pipeline pressures are lowered which will make the well productive, it will be kept shut-in.

Yours very truly,

MAGNOLIA PETROLEUM COMPANY
