Gentlemen:

Enclosed herewith please find Administrative Order No. DC-592 for your North Lindrith Well No. 1 located 990 feet from the South line and 990 feet from the West line of Section 20, Township 26 North, Range 2 West, NMPN, San Juan County, New Mexico, to produce gas from an undesignated Pictured Cliffs Pool and from the Mesaverde formation adjacent to the Blance Mesaverde Pool.

Very truly yours,

A. L. PORTER, Jr.,  
Secretary-Director

ALP/OKP/og

THE APPLICATION OF HUMBLE OIL &  
REFINING COMPANY FOR PERMISSION TO  
EFFECT DUAL COMPLETION OF ITS NORTH  
LINDRITH WELL NO. 1 LOCATED 990  
FEET FROM THE SOUTH LINE AND 990  
FEET FROM THE WEST LINE OF SECTION  
20, TOWNSHIP 26 NORTH, RANGE 2 WEST,  
NMPM, SAN JUAN COUNTY, NEW MEXICO,  
IN SUCH A MANNER AS TO PERMIT THE  
PRODUCTION OF GAS FROM AN UNDESIGNATED  
PICTURED CLIFFS POOL AND TO PERMIT THE  
PRODUCTION OF GAS FROM THE MESAVERDE  
FORMATION ADJACENT TO THE BLANCO  
MESAVERDE POOL

ADMINISTRATIVE ORDER  
OF THE OIL CONSERVATION COMMISSION

Under the provisions of Rule 112-A (c) Humble Oil & Refining Company, application to the New Mexico Oil Conservation Commission on April 18, 1958, for permission to dually complete its North Lindrith Well No. 1, located 990 feet from the South line and 990 feet from the West line of Section 20, Township 26 North, Range 2 West, NMPM, San Juan County, New Mexico, in such a manner as to permit the production of gas from an undesignated Pictured Cliffs Pool and to permit the production of gas from the Mesaverde formation adjacent to the Blanco Mesaverde Pool.

Now, on this 29th day of April, 1958, the Secretary-Director finds:

- (1) That application has been duly filed under the provisions of Sub-section 'c' of Rule 112-A of the Commission's Rules and Regulations;
- (2) That satisfactory information has been provided that all operators of offset acreage have been duly notified; and
- (3) That no objections have been received within the waiting period as prescribed by said rule.
- (4) That the proposed dual completion will not cause waste nor impair correlative rights.
- (5) That the mechanics of the proposed dual completion are feasible and consonant with good conservation practices.

IT IS THEREFORE ORDERED:

That the applicant herein, Humble Oil & Refining Company, be and the same is hereby authorized to dually complete its North Lindrith Well No. 1, located 990 feet from the South line and 990 feet from the West line of Section 20, Township 26 North, Range 2 West, NMPM, San Juan County, New Mexico, in such a manner as to permit the production of gas from an undesignated Pictured Cliffs Pool and to permit the production of gas from the Mesaverde formation adjacent to the Blanco Mesaverde Pool, through parallel strings of tubing.

PROVIDED HOWEVER, That subject well shall be completed and thereafter produced in such a manner that there will be no commingling within the well-bore, either within or outside the casing, of gas, oil and gas, or oil produced from either or both of the separate strata,

PROVIDED HOWEVER, That prior to the actual dual completion the operator shall make pressure tests of the casing to prove that no casing leaks exist. In the event a casing leak is apparent the operator shall take appropriate steps to adequately repair the leak. The results of these tests shall be reported to the Commission on Form C-103.

[illegible]

PROVIDED FURTHER. That upon the actual dual completion of such subject well applicant shall submit to the appropriate District Office of the Commission copies of Oil Conservation Commission Form C-103, Form C-104, Form C-110, and Form C-122, outlining the information required on those forms by existing Rules and Regulations, and two copies of the electric log of the well.

PROVIDED FURTHER. That said subject well for dual completion and production shall be equipped in such a way that reservoir pressures may be determined separately for each of the two specified strata, and further, be equipped with all necessary connections required to permit recording meters to be installed and used at any time as may be required by the Commission or its representatives, in order that natural gas, oil, or oil and gas from each separate stratum may be accurately measured and the gas-oil or gas-liquid ratio thereof determined, and

PROVIDED FURTHER. That the operator shall make any and all tests, including segregation and packer-leakage tests upon completion and annually thereafter during the Annual Deliverability Test Period for the Blanco Mesaverde Pool commencing in the year 1959, and whenever the packer is disturbed, but not excluding any other tests and/or determinations as deemed necessary by the Commission; the original and all subsequent tests shall be witnessed by representatives of offset operators if any there be at their election, and the results of each test, properly attested to by the applicant herein and all witnesses, shall be filed with the Commission within fifteen (15) days after the completion of such tests, and further, that applicant shall file with the Commission in duplicate a packer-setting affidavit, which affidavit shall be due within fifteen (15) days of the dual completion or whenever the packer is disturbed, and

PROVIDED FURTHER. That upon the actual dual completion of such subject well, applicant shall submit to the Commission a diagrammatic sketch of the mechanical installation which was actually used to complete and produce the seal between the strata, and a special report of production, gas-oil ratio or gas-liquid ratio, and reservoir pressure determination for each producing zone or stratum immediately following completion.

IT IS FURTHER ORDERED. That jurisdiction of this cause is hereby retained by the Commission for such further order or orders as may seem necessary or convenient for the prevention of waste and/or protection of correlative rights; upon failure of applicant to comply with any requirement of this order after proper notice and hearing the Commission may terminate the authority hereby granted and require applicant or its successors and assigns to limit its activities to regular single-zone production in the interests of conservation.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
