MAGNOLIA PETROLEUM COMPANY

A SOCONY MOBIL COMPANY

Box 727
Kermit, Texas
November 27, 1956

New Mexico Oil Conservation Commission
120 E. Chaco
Aztec, New Mexico

Gentlemen:

The Magnolia-Jicarilla "D" Well No. 2 located in Section 14, T26N, R3W, has been dually completed in the Pictured Cliffs and Mesa Verde formations. This well has been cleaned up and was shut-in November 25, 1956. We plan to run the first half of the Packer Leakage Test on December 2, 1956, in conjunction with Initial Potential Test. The second half of the Packer Leakage Test is planned for December 9, 1956. We intend to commence the test at 9:00 A. M. on each of the above dates.

If circumstances should occur that would interfere with running the test on the dates and time noted above you will be notified by telephone. If you have any questions concerning this, please contact Mr. W. W. Rutz, Box 1296, Phone No. DAVIS 5-9827, Farmington, New Mexico.

Yours very truly,

MAGNOLIA PETROLEUM COMPANY
