(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

December 8, 1960

Well No. D-244 is located 990 ft. from N line and 990 ft. from E line of sec. 14  
NE 1/4 14 26N 6W NMPN  
 (1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Pasin Dakota Pio Arriba New Mexico  
 (Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 5616 ft. D.L.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This is for the purpose of changing the name of this well from D-244 to D-244

It was originally intended to complete this well as a dual Mesa Verde and Dakota producer. However, the Mesa Verde zone was discovered to be barren so the well was completed as a Dakota producer only. Therefore, we would like to change the prefix to denote the type of well it is.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
