Gentlemen:

In checking our files we do not find a Notice of Intention to drill your old original No. 1 Scott well, which I believe you now carry as #1-134 in the Northwest quarter of Sec. 20-26N-6W.

Also please send us pipe information. In other words, we do have the Schlumberger but no information on the casing that is in the well. Please send this at your earliest convenience.

Yours very truly,

Al Greer
