17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was filed on the "Application to Drill" as a single Dakota completion. After the logs were run, it was decided that the Mesaverde zone should also be completed. We hereby request permission to complete it as a Basin Dakota - Blanco Mesaverde dual. We propose to run a packer to separate the two zones. Tubing will be run to the Dakota. We propose to produce the Mesaverde through the annulus.
