13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well is an active producing injection well which passed the MIT test on 8-21-2000 (See Attached) therefore, we see no reason to plug this well at this time.

MRO"s were filed wrong, this well is currently injecting 2 days per month.
