Re: Packer Leakage Test on EPNG #80
SJV 28-6 (PM), NE¹ Section 12-27N-6W

Dear Mr. Oberly:

Two packer leakage tests have been submitted on the above well. The one submitted on May 26, 1958 indicated no communication; however the test submitted on June 3, 1958 indicates communication between the two producing zones.

We are directing that remedial action be started on this well prior to July 1, 1958.

Yours very truly

Emery C. Arnold
Supervisor, District #3
