Instructions

General: This form is designed for submission of information for approval of proposals for abandonment of wells, operations which are proposed, and reports of such operations when completed. It is to be used for all lands in such States, including those in which the Federal Government has an interest. It is to be used for all lands in such States, including those in which the Federal Government has an interest. It is to be used for all lands in such States, including those in which the Federal Government has an interest. It is to be used for all lands in such States, including those in which the Federal Government has an interest.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of parting of any casing, liner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
