Administrative Order NSL-1585

Gentlemen:

Reference is made to your application on behalf of Turner Production Company for a non-standard location for their Turner 21 Well No. 1 to be located 2390 feet from the South line and 790 feet from the East line of Section 21, Township 26 North, Range 7 West, NMPM, South Blanco-Pictured Cliffs Pool, Rio Arriba County, New Mexico.

By authority granted me under the provisions of Rule 104 F of the Division Rules and Regulations, the above-described unorthodox location is hereby approved.

Sincerely,

  
JOE D. RAMEY,  
Director

RE: Application for Non-standard Location  
Turner Production Company  
Turner 21 #1  
I-21-T26N-R7W

Gentlemen:

Turner Production Company respectfully requests approval of a location for its proposed Turner 21 #1 well to be located 2390' FSL and 790' FEL of section 21, Township 26 North, Range 7 West as a South Blanco-Pictured Cliffs Pool extension in Rio Arriba County, New Mexico, because of topographical conditions.

The drill tract comprises the southeast quarter (SE/4) of section 21.

Any standard location would be approximately 400 feet above the canyon floor and approximately 200 feet below the mesa top. There is not room to build a roadway along the cliff from the well to the north.

Enclosed is a portion of the USGS topographic quadrangle (Nageezi) for the area. Also enclosed are a copy of the surveyor's plat and an ownership map.

Each offset operator is being mailed a copy of theis application by certified mail at the time of this mailing.

If further information is needed, please contact me.

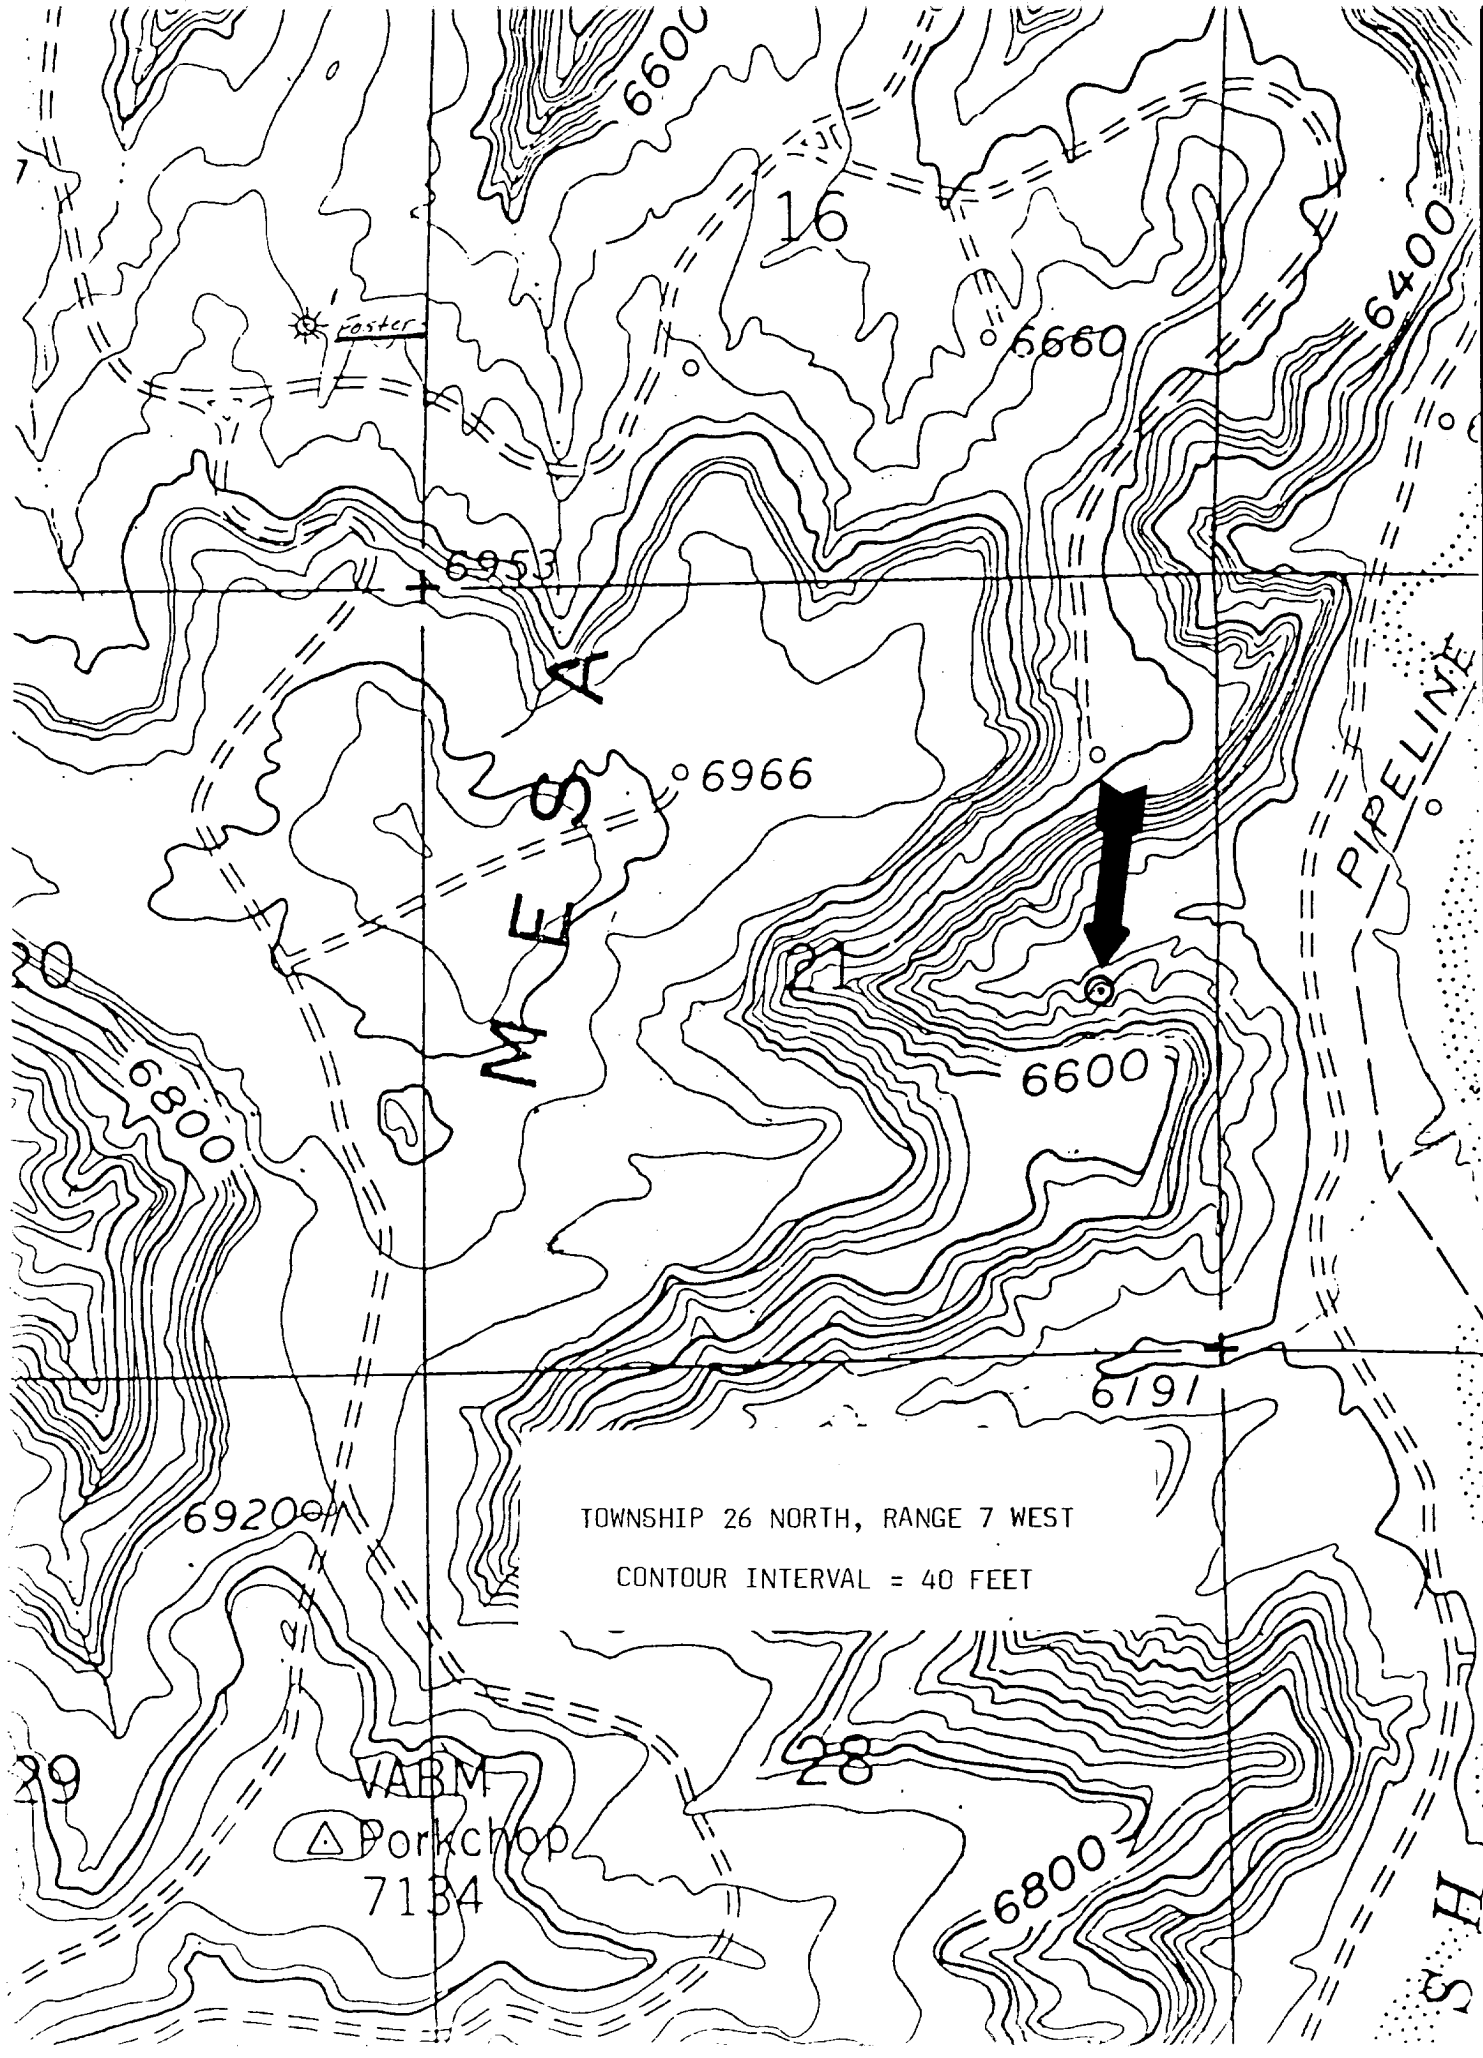

Yours very truly,

*AR Kendrick*
