

20 27 10

April 6, 1959

El Paso Natural Gas Company
Box 997
Farmington, New Mexico

Att: Mr. E. S. Oberly

Dear Mr. Oberly:

On February 27, 1959 this office cancelled form C-110 for Gallup production on your Huerfano Unit # 107 well, for the reason that the well was a non-standard oil location.

Subsequently, the Commission issued Order R-1357 re-classifying the Angels Peak Gallup Gas Pool as the Angels Peak Gallup Oil Pool. This Order states that all non-standard oil well locations drilled or drilling prior to March 20, 1959 are approved by the terms of the Order.

We are therefore, re-instating form C-110 for the Gallup side of this dual. C-110 was originally approved on February 26, 1959.

Yours very truly,

Emery E. Arnold
Supervisor, District # 3
