- ☐ Change of Plans  
☐ New Construction  
☐ Non-Routine Fracturing  
☐ Water Shut-Off  
☐ Conversion to Injection  
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log Form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Per our previous correspondence Northstar Oil and Gas proposes to plug and abandon this well.  
Please note that the primary cement job circulated cement to surface.  
The well will be abandoned as follows:

- 1) Pull tubing from the well.
- 2) Fill the 2-7/8" casing from the Pictured Cliffs perf's to the surface with 100 sks of Class B cement.

Cement properties:

Yield # cu-ft/sack

Weight # lbs/gal

- 3) Cut off casing and weld on abandonment marker with well ID
- 4) Clean up location and reseed as necessary.

14. I hereby certify that the foregoing is true and correct
