13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Amoco Production Company has review the uphole potential in the McCulley LS # 5. Our evaluation indicates that an uphole recompletion into the Mesaverde is uneconomic due to depleted reservoir pressures and poor quality permeability in the area. Our intentions are to P&A the wellbore. P&A procedures are being prepared and will be submitted to your office for approval upon completion.
