

Adopted  
1-1-65

NEW MEXICO OIL CONSERVATION COMMISSION  
PACKER SETTING REPORT

I, Curtis L. Crenshaw, being of lawful age and having full  
Name of party making report

knowledge of the facts hereinbelow set out do state:

That I am employed by Welex, A Division Of Halliburton Co. in the capacity of

Asst. Dist. Manager, that on August 28th., 1965

I personally supervised the setting of a Baker Model "D" Prod. Packer  
Make & type of packer

in Tenneco Oil Co., Omler,  
Operator of well Lease name

Well no. "A" # 2 located in the Angle Peak field,

San Juan county, state of New Mexico, at a subsurface depth of

6,240' feet, said depth measurement having been furnished me by

Field Wire Line Service;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it is believed to be effective and its use is not in violation of any laws or regulations of the State of New Mexico.

Curtis L. Crenshaw
