Supron Energy Corporation
P. O. Box 808
Farmington, New Mexico 87401

Gentlemen:

Reference is made to your well No. 28 Angel Peak "B", sec. 13, T. 28 N., R. 11 W., lease Santa Fe 047017B.

Based on a recent field inspection by the Bureau of Land Management, the well appears to have been drilled at a location approximately 1655' FNL and 1455' FEL. This location was the original location filed with this office, however, at our request the location was to be moved to 790' FNL and 1800' FEL. A copy of the Sundry Notice approving this change in location is enclosed for your review.

Please notify this office, in writing, as to the exact location of the above well, by September 15, 1980, in order to resolve this matter.

Sincerely yours,

James F. Sims
District Oil and Gas Supervisor
