Conditions of Approval for Water Tanks on Jic 451-3 #3

This well has not been drilled as of 1/23/2001, but the drilling activity has been approved by the Tribe, the BIA and the BLM. Per a phone conversation 1/22/2001 with Terry Linneman, Mallon representative, the company is planning on constructing the pad and using it for water storage prior to drilling the Jic 451-3 #3. The surface disturbing activity has been covered in a NEPA document and all required clearances conducted. Damages for the acreage disturbed will be paid to the Tribe as required in the concurrence letter sent by the BIA.

1. Notify the BLM when pad construction begins at (505) 761-8786.
2. The water tanks will be bermed and fenced.
3. If the Jic 451-3 #3 is not drilled, surface reclamation will be required as outlined in the APD when the pad is no longer needed for lease operations.
